

Step 3.5

**This is an Overview Before
Assembling the Screw Drive Legs**

2019 Reinforcement Tabs Layout
Per Roll-In Section

Reinforcements Tabs (For Roll-In Docks Only)

Shore
End

On the Shore End You Will
Install Two Tabs Per Section

Install each of the Larger Tabs as
shown using the existing
hardware

(Each dock Unit will have one set)

Install each of the End Channel
Plates. Fasten the tab as shown
using the existing Connecting Pin
Hardware or U-Bolts.

(Each Screw Drive will require one End
Channel Plate)

Note: arrow direction goes to the outside.

On the Lake End You
Will Install Up to One
Set of Tabs Per
Section

Install each of the
Smaller Tabs as shown
using the existing
hardware & one extra
bolt and nut.

Note the bolt on the V-Beam is
fastened upside down

Lake End
